

FOR COOLING OUT LOUD

In the May edition of the newsletter, we have been thinking about the future.

Firstly, exhibiting at the ITT Hub event in the second week of May confirmed that the next big thing in cooling is likely to be thermal management of energy storage units. Read more in a blog exploring the topic.

Attending the Harper Adams Scholarship presentation last week proved uplifting for MD Matthew Morris as he met and mixed with the future of engineering talent. He was so impressed with the recipient of this year's exclusive SPAL Scholarship, Elliot Lack whose work in robotics and autonomous vehicles at the renowned agricultural university is soon to be applied in a medical setting.

Cool guy says...

"What we usually consider as impossible are simply engineering problems... there's no law of physics preventing them."

Michio Kaku
**American theoretical physicist
and futurist**
