## SPAL UK Undergoes HQ Training

Sales staff from SPAL Automotive UK Ltd, spent a valuable few days at SPAL HQ in Correggio, Italy earlier this month, gaining insight into the world beating range of thermal management solutions.

James Bowett, General Manager, Neil Price, Business Development Manager and Ashley Brown, Sales Support, enjoyed a trip to the factory and experienced training in the latest product updates.

Ash commented: "The factory tour is a solid reminder of just how good the SPAL products are. Top of the agenda here in Italy, to ensure the complete reliability of the fans, blowers and water pumps is the extensive onsite testing facilities which serve to push performance to its outer limits."

Neil said: "The training given on the brushless product was really helpful in enhancing my appreciation of the technical side of these components."

James added: "Understanding how SPAL products are engineered and operate is the best way for our team to be able to provide the second-to-none support structure here at SPAL UK."

## SPAL Makes Waves in the Marine Sector

SPAL made a bold statement in the Seawork event edition of Maritime Journal to capitalise on the growth within this sector.

James Bowett reported: "With many new customers coming onboard looking for greater reliability under quite difficult conditions at sea, it was an opportunity to raise our profile at this important exhibition."

### Across Land, Sea and Air. Above all choose SPAL

High-performance fans and blowers for marine environments  
Robust, reliable, engine room ventilation.
